#### PATIENT CONSENT FORM

I understand that, under the Health Insurance Portability and Accountability Act of 1996 (HIPAA), I have certain rights to privacy regarding my protected health information. I understand that this information can and will be used to:

- ♦ Conduct, plan and direct my treatment and follow-up among the multiple healthcare providers who may be involved in that treatment either directly or indirectly.
- ♦ obtain payment from third-party payers
- ♦ conduct normal healthcare operations such as quality assessments and physician certifications.
- ♦if there are financial matters in dispute after the fact, I waive my right to privacy under the HIPAA Act of 1996 I have been informed of the Notice of Privacy Practices containing a more complete description of the uses and disclosures of my health information. I have been given the opportunity review such Notice of Privacy Practices prior to signing this consent. I understand that this organization has the right to change its Notice of Privacy Practices from time to time and d that I

nay contact this organization at any time to obtain a current copy of the Notice of Privacy Practices from time to time a may contact this organization at any time to obtain a current copy of the Notice of Privacy Practices.  understand that I may request in writing that you restrict how my private information is used or disclosed to carry or reatment, payment or healthcare operations.  understand that I may revoke this consent in writing at any time, except to the extent that you have taken action rely his consent.

understand that I am responsible for all fees. I understand the office of Philip J. Straka, M.D. is not currently accepting new insurance patients and will not file any insurance claims on my behalf. I understand that all surgical fees are due prior to surgery being performed.
DATE:
Please list those people with whom we may discuss/release medical information to:
o my patients;
am occasionally asked to review cases and treat patients who have less than satisfactory results from other surgeons. It is my pleasure to try to correct these unsatisfactory results, but I must divise all of my patients that I will <b>not</b> testify as an expert witness in any legal proceedings whether for a plaintiff's attorney or a defendant's attorney. My schedule is too demanding and it takes away from my focus of providing the best medical care possible.

### TOBACCO/NICOTINE USE

If you smoke, use marijuana, tobacco products or nicotine products (patch, gum, vaping devices, nasal spray or smokeless tobacco products) and/or exposed to second-hand smoke, you should stop at least three weeks prior to your surgical procedure, however there is no known specific minimum time for the reversal of nicotine-induced wound healing risks when exposure to nicotine ceases. Do not resume marijuana/tobacco/nicotine use for at least three weeks after surgery. Studies have shown that tobacco/nicotine users are at a greater risk for significant surgical complications of skin death, infection and delayed healing.

Tobacco products/nicotine/marijuana contain carbon monoxide which constricts the blood vessels, restricting blood flow to the skin and other parts of the body. This results in a diminished amount of oxygen and nutrients delivered to the parts of the body that need it most-those areas that are undergoing the healing process. Therefore, marijuana/tobacco/nicotine users are much more likely to experience skin loss, wound healing problems, infection, fat necrosis and excess scarring after a surgical procedure. Although these complications can affect anyone, complete abstinence from tobacco and nicotine products, including exposure to second-hand smoke, during the advised periods will greatly decrease the chances of such complications affecting you.

Please indicate your current status regarding these items below:
I am a non-smoker and do not use marijuana/tobacco/nicotine products. I understand the potential risk of second-hand smoke exposure.
I am a smoker and/or use marijuana/tobacco/nicotine products.
I have read the above statement, and understand that my failure to follow the above advice may adversely affect the outcome of my surgical procedure which may lead to wound healing problems, skin necrosis which requires wound debridement, revisional surgery, scar revision and may cause emotional distress from a poor surgical result.   I understand that complications related to marijuana/tobacco/nicotine may require further treatment for which I will be financially responsible. This may include, but is not limited to, surgical debridement, revisional surgery, the cost of prescriptions and dressing supplies.
